

HBK Carpentry

Architectural woodwork for
living and working spaces

Intro

We define ourselves as a manufacturer and contractor for architectural woodwork, providing customized solutions that satisfies High quality premium projects and custom quality for economic projects.

We have completed many projects in Qatar supplying **wooden doors (Normal, fire, Acoustic, internal and external), wardrobes and cabinets, kitchens and vanities, paneling and cladding, counters and pergolas and many other customized wood products like trims , corniches and ornamental work**, for residential and commercial spaces, covering sectors like hotels & apartments, hospitals, sport facilities and stadiums, offices, villas and palaces. We have gained approval and satisfaction from our clientele base ranging from individuals to large entities.

Since its establishment in the year 1982, HBK carpentry led by its mother company HBK Contracting and HBK Holding, set their strategies to be aligned with quality, productivity, friendly relationships with client and employees, and caring for environment and society.

Quality

We have set the bar for the quality by defining specific parameters and procedures to measure and improve our performance; **quality products should look nice and last for long; and it should meet or exceed client expectations.** To achieve this goal, we rely on building strong relationships; so that we can listen closely to our clients, open communication; so the team can exchange ideas, risk assessment; so that we can plan for the future and avoid mistakes, safety and health measures for our skilled employees; who are the core of our business, and on Quality assurance systems; like ISO, FSC and other inhouse procedures.

Doors

The most used item in our homes, reaches thousands of usages cycles per year. Doors should provide feeling and performance for security, durability and aesthetic value that complements the overall interior design of the living or working place.

Our range of doors includes, Flush Internal doors, Paneled doors for main entrances, External doors and gates, Fire rated doors with acoustic rating, with design options of modern, classic, or doors with traditional design.

With unlimited number for material selection and finishes, like Solid wood, Engineered material, Natural veneers and different paint finishes.

Wardrobes

A well designed wardrobe should provide means to make life easier, a solution for organizing your cloths, ease of use, space optimization and after all a beautiful design that fits your life style .

We cover the following styles of wardrobes, Modern, Classic & Walk- in.

With a huge variety of material and accessories that you can select from, like, Melamine boards, Veneer, Solid wood trims and Hardware and accessories from top brands.

Living

Whether it is a tv unit, a wall partition with shelves, utility cabinet or a credenza, engineered or solid wood flooring we can customize it for you.

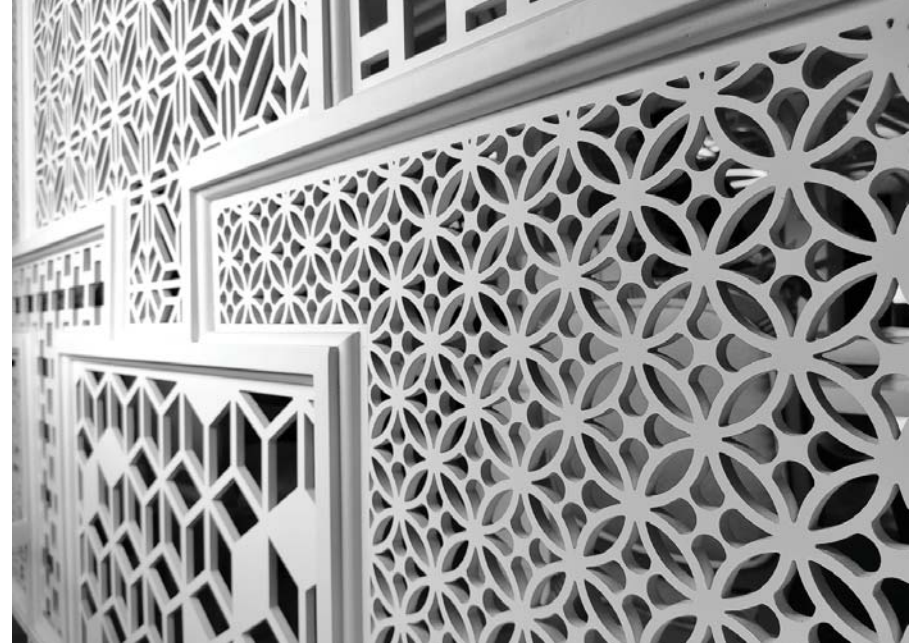

Kitchens

Kitchens are the heart of our homes, a place where quality time is spent with family and friends, for making your favorite cooks, eating and sharing, having your sweet snack or coffee, or just reading the newspaper. It should be well designed by function and aesthetics with the use of durable material, so that you can enjoy it for a long time.

We can manufacture the following ranges, Modern, Classic, and contemporary. With a wide range of material, tops, and accessories.

Panelling & Cladding

Although innovations in the wall covering are happening every day , our clients still prefer wood based material as it provides a beauty that can't be matched , whether natural or synthetic , plane veneered or heavily carved , alone by itself , or combined with new material like acrylic based surfaces, metal trims or even LED lights.

Counters

The counter or the reception desk is the first piece of furniture that your clients land their eyes on when they enter your building; its has to be well-made with high care for details and should provide and impactful visual impression so that you can deliver your brand from the first encounter.

Desks & Workstations

Now-a-days, offices or workspace design has become more challenging, hygienic requirements has increased dramatically, and the requirements for ergonomics and ease of use and comfort has also increased because we spent more hours in offices.

With our partners, we can design and produce customized options for executive desks and workstations ranging from economic laminated boards to veneered and natural woods combined with aluminum profiles. We also offer other office furniture pieces like partitions and cabinets.

Why Wood ?

Wood is known for its many and amazing advantages, like its wide diversity and availability of sizes, colors and grains, durable and heavy duty when compared to other material, excellent insulation for sound , heat and electrical charges insulation, high aesthetic value due to its pleasant and appealing natural color, grain and texture, accepting different types of finishes like staining and painting , easy to form by cutting and gluing , easy to maintain and to be repaired, resists decay, rusting and other weather conditions, can be treated to resist fire and flammability , and can be mixed with other decorative material like steel and glass to add more visual and structural value.

When selecting wood for your project, consider the following:

1. Cost: some species are very expensive like Teak and some are economic like beech and meranti.
2. Degree of Hardness, and what amount of loading or impact resistance is required.
3. Volumetric Stability, which is the resistance to change in dimensions when subjected to humid condition
4. Aesthetic Properties, like color, heart wood and sap wood color variations, grains direction and depth, the shape of the grain and direction of the lumber or veneer cut.
5. The Paint or treatment process requirements.
6. Resistance to decay, rot, and insects.
7. Resistance to generation of smoke and flame spreading.
